SPD PRL-B

Stacker with side tilting clamp for reels

The **SPD PRL-B** is a **full electric stacker** specifically designed for **tilting reels** of different size. The **brand new design** of the frame and the equipment has been developed to guarantee a **360° tilting** of rolls **up to 600 Kg**. The **rotation is smooth** and the speed can be adjusted by a **proportional joystick** on the tiller. The **rotation is full electric** in order to **minimize maintenance** operations and to improve precision. The **wide extruded mast** and the **straddle legs** (available on request) has been designed in order to improve **sturdiness and safety** for the operator. The **tilting clamp** has been designed to fit a **wide range** of reels up to **1270 mm**.

REEL RANGE DIMENSION:

a) Reel diameter: from 150 mm to 1270 mm

b) Reel width: from 380 mm to 1200 mm

Maximum Capacity: 600 Kg
